SUMMARY

A dedicated Full-Stack Software Developer passionate about learning, problem solving and attention to detail. I've recently graduated from a full-time 6-month intensive bootcamp and am eager to contribute my creativity and technical prowess to your team.

RELEVANT EXPERIENCE

Full-Stack Developer Trainee

Boolean UK

📅 08/2023 - 03/2024

- Acquired proficiency in programming languages such as JavaScript alongside essential development tools and methodologies including version control systems like Git.
- Served as scrum master as part of the 4-week Team Development simulation working with the rest of my class on an existing codebase. This let us practice Kanban and agile with stand-ups and retros as well as best practice around branching, merge conflicts, and pull requests.
- Collaborated with a team of experienced developers to gain insights into real-world projects and industry best practices.
- Demonstrated adaptability and a keen interest to learn by quickly grasping new concepts and technologies introduced during the course.
- Leveraged this experience to solidify foundational skills and prepare for a successful transition into a junior software developer role.

PROJECTS

Project Portfolio

🔗 yee0802.netlify.app

My web and mobile friendly project portfolio single-page application built with React.

Stylish E-Commerce App

🔗 https://github.com/yee0802/react-store
https://github.com/yee0802/react-store-server

A user-friendly e-commerce website

- Advanced features including category filtering, email-based user authentication, saved item management, and integrated Stripe checkout.
- Built using React for the frontend, Node.js and Express.js for the backend, and PostgreSQL for the database.

Cohort Dashboard

🔗 https://github.com/yee0802/react-cohort-dashboard-challenge

A social-media style application built using React utilising CRUD operations.

Spotify Homepage

🔗 https://htmlpreview.github.io/?https://github.com/yee0802/html-spotify-challenge/blob/main/index.html

An early project during my time with Boolean, This project is a static homepage of Spotify implemented using HTML & CSS.

SKILLS

Frontend

Javascript   ReactJS   HTML

CSS

Backend

PostgreSQL   Node.js   Express

Prisma

Other

Git   Jasmine   TDD

RESTful APIs   Authentication

STRENGTHS

🧩 Computer Hardware

Starting from the age of 10, I pieced together my inaugural computer, igniting a lasting passion for all things computer-related.

🚴 Fitness Enthusiast

I've cycled through 100KMs in 6hrs, enjoy staying active and fit, exploring hiking trails, and immersing myself in the beauty of the outdoors.
